1. The following is an examiner's statement of reasons for allowance:
2. The Examiner has not found any prior art that would render obvious the claimed subject matter including extracting paged party identification information from an origination message from the user of the paging party, determining that the paged party subscribes to a location service based on the extracted paged party identification information, and transmitting a message including a description of the location of the paged party to the user equipment of the paging party.
3. Claims 1-36 are allowable. The rejections over Sheha et al, Russell et al, Brisebois et al, Larkins et al and Crowson et al are overcome in view of the amendments and applicants' arguments. For example, in Sheha et al [0020] the system queries a position-enabled remote device and verifies its privacy settings and in [0046] based on privacy settings, position information may be prohibited from being sent. Applicants' related application 10/601,945 is directed to similar subject matter wherein the location of the calling party is transmitted to the user equipment of the called party.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory C. Issing whose telephone number is 703-306-4156. The examiner can normally be reached on Monday - Thursday 6:00 AM- 4:30 PM.
